

PLAM APRIPORI

Treatment to open pores on concrete floors

DESCRIPTION

Plam Apripori Isoplam® is a strong acid that removes the cementitious parts on concrete surfaces.

FIELDS OF USE

Plam Apripori Isoplam® is used as a cleanser (it contains degreasing agents) and to prepare the surface for further treatments.

Plam Apripori Isoplam®:

- Cleans and removes cementitious parts from granite, clinker, rock and from all those non-polished calcareous materials;
- Helps the removal of cementitious residues from Italian Terrazzo floors™;
- Opens the pores of surfaces that will be treated with Plam Acid Isoplam®;
- Opens the pores allowing the hooking of sealing treatments.

APPLICATION

Plam Apripori Isoplam® has to be diluted with water 1:5.

The dilution depends on the kind of surface to be treated and on the dirt intensity to be removed: test the product before application.

Apply Plam Apripori with a mono-brush or with a floor washer. If the result is not good, apply Plam Apripori again.

Remove the product from the surface, washing it with plenty clean water.

Plam Apripori must not be used on metals, slate or on polished surfaces.

CONSUMPTION

If diluted, the consumption is 100 g/m², otherwise the consumption is 20 g/m².

PACKAGING AND STORAGE

Plam Apripori Isoplam® is supplied in tanks of 20 Lt.

The product should be stored in a dry and ventilated place, with temperatures between + 5 ° C and + 30 ° C.

If properly stored it is guaranteed 12 months. The packaging date is shown on the package (the lot number indicates, in sequence, year / week / day).

Consult the product safety data sheet before using them.

The product fears frost.

WARNING

Plam Apripori Isoplam® is a corrosive product: follow necessary precautions.

Plam Apripori Isoplam® is intended for professional use only.

IMPORTANT:

The product PLAM APRIPORI is intended for the use as indicated above. Adding any other product will impair the final result. All information contained herein is based on the best practical experiences and laboratory research. It is the customer's responsibility to determine whether the product is suitable for the intended application. The manufacturer declines all responsibility on the results due to incorrect application of its products. The product shall always be tested on a small area before full scale application. This data sheet replaces all previous data sheets. ISOPLAM reserves the right to change the data on the data sheet at any time. PLAM APRIPORI is intended for professional use only. ISOPLAM provides frequent and on demand trainings for its customers. The use of ISOPLAM products without receiving the proper certification will be at the customer's own risk.
